Welcome Everyone!

Shops are losing revenue every single morning.

The queue outside kills the sales!!

Meet Amira, a Pastry Shop Owner

Her biggest problem isn’t baking… It’s the invisible losses she can’t measure.

The Real Pain Points

- Long Queues
- Missed opportnities
- Cutomer churn

- Research shows peak arrivals of **2–3 clients/min** in bakeries, with utilization swinging between **70%–97%** **(Ostrich Bakery case study)**

Our Solution

A smart AI camera that transforms shops into a data-driven business.

- Queue Tracking
- Zone Analysis
- Real-Time Alerts
- Insights Provision

Plug-and-play. No new hardware. Setup in 15 minutes. Fully automated dashboard.

What the camera sees → What the system understands → What the owner gains

Camera Sees real time videos

System Understands and provides useful insights

Owner Gains

TECHNICAL PART

- YOLO V8 powered detection
- Polygon-based zone tracking
- Real-time processing
- Works with ANY camera
